THE PROBLEM

Fragmented Evaluation Tools Cost Universities Hundreds of Hours

Universities rely on paper forms and scattered tools like Google Forms and SurveyMonkey, delaying insights and complicating compliance with academic accreditation standards.

Scattered Tools
No unified system — each department uses separate tools

Wasted Hours
Manual data collection and analysis wastes valuable academic time

Accreditation
Difficulty meeting quality standards without documented, organized data

400+	0	∞
Admin hours wasted per semester	Dedicated academic evaluation tools in the Egyptian Market	Delays in curriculum improvement decisions

THE SOLUTION

One Platform to Replace All Scattered Tools

InsightO combines surveys, dashboards, reports, and AI analysis in one unified environment serving all academic stakeholders.

All-in-One Platform
Surveys + Dashboards + Reports + AI all in one place

Multi-Role Workflows
Dedicated spaces for students, trainers, QA, and management

Accreditation Compliance
Full compliance with quality and Accreditation standards

Embedded AI Analytics
Automated sentiment analysis and recommendations without human analysts

TARGET USERS

Universities · Trainers · QA Officers · Students

GO-TO-MARKET STRATEGY

Three Phases
From Idea to Regional Expansion

PHASE 1 · NOW

🔨 Build & Develop

- Complete MVP Development
- Mobile App Development
- Integrate OpenAI API
- Integrated Cloud Infrastructure

PHASE 2 · YEAR 1

🚀 Launch & Acquisition

- 4 Major Institutions (B2B)
- 500 Independent Trainers (B2C)
- MRR = 256,000 EGP
- Break-even from Month 2

PHASE 3 · YEAR 2+

🌍 Regional Expansion

- UAE + KSA
- North Africa (Morocco, Tunisia)
- Founder Salaries + Hiring
- Advanced AI Features

✅ CURRENT PROJECT PROGRESS

From Concept phase to full system design and financial plan

⚠️ POTENTIAL CHALLENGES

- Long academic B2B sales cycle
- Exchange rate risks (COGS in USD)
- Convincing universities to replace their systems
